INNOVATIONS

The Complete Hygiene Solution www.ekcos.eu

We are the leader in fragranced sanitary products

Ekcos Innovations develops, manufactures and distributes innovative fragranced sanitary products with strong emphasis on the highest possible quality and environmental sustainability.

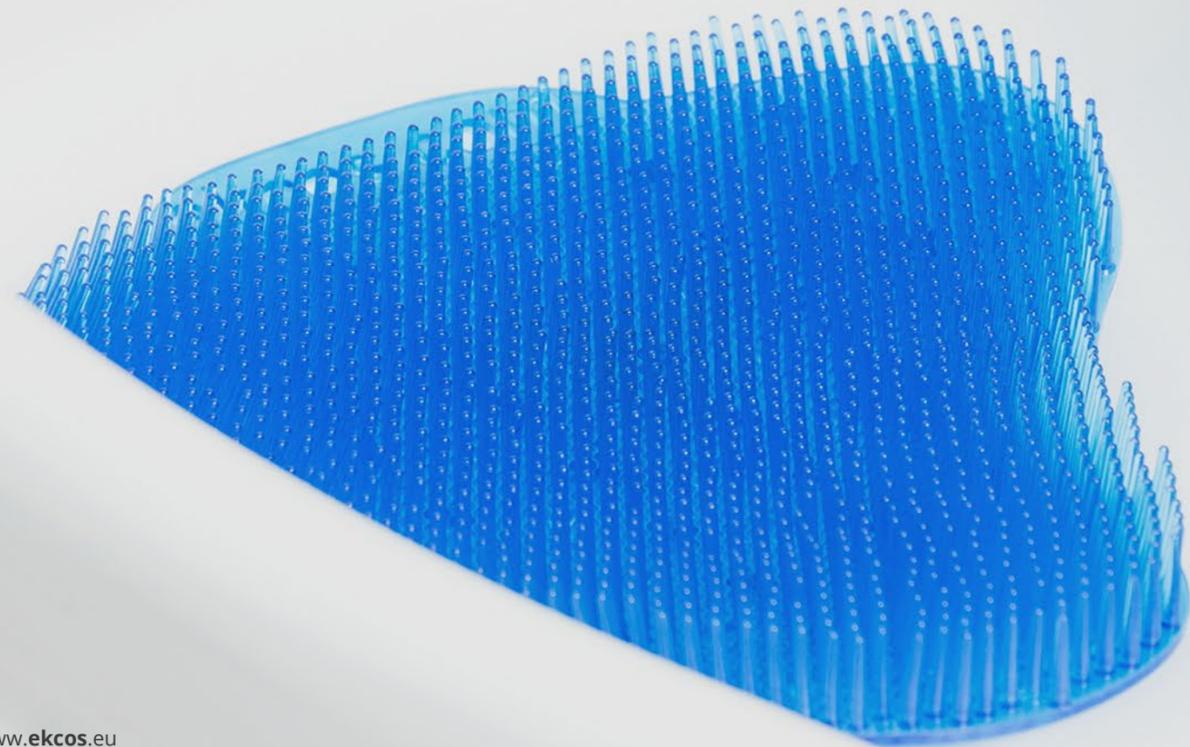

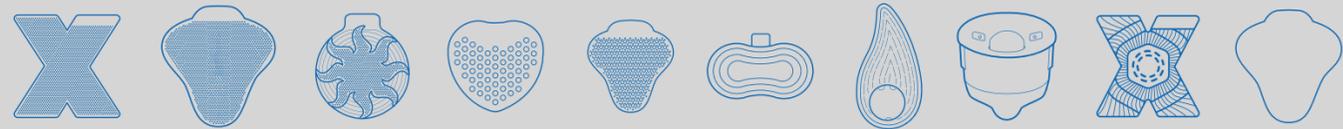

Our fragranced products are the worldwide first products with these attributes of ecological friendliness on the market. **Made with recycled EVA plastic which can be further 100% recycled, it is also biodegradable thanks to patented ECO ONE® additive,** which dramatically accelerates the decomposition of EVA plastic to 99% decomposition within 5 years in biologically active landfills. Even our packaging uses eco-friendly cellophane bags.

Thanks to experience gained from sales in **more than 70 countries around the world**, where we have successfully implemented our unique products, we can confidently declare that we are the leader in production and worldwide distribution of environmentally friendly fragranced hygiene products.

Our Vision

- 1 Cleanliness, freshness and fragrance in all sanitary facilities
- 2 Protect users against the transmission of viruses and bacteria from urinals
- 3 Simplify cleaning and reduce cleaning costs
- 4 **To be eco-friendly and produce biodegradable products from recycled EVA plastic** 

We provide complete services:

- Expert consultation
- Innovative concepts
- Product design and mould design
- Prototyping
- Production analysis
- Design and implementation of custom branding and labeling
- Manufacturing
- Professional packaging
- Global logistics
- Professional customer support

Product Overview

The ultimate upgrade for waterless urinals

Packaging Info

Single pack	Master case	Pallet
1 pcs	6 pcs	936 pcs

Product Benefits

- The easiest and most efficient way to keep your waterless urinal clean and odor free while significantly reducing maintenance costs
- Our patented Cartridge System allows the natural flow of urine through the trap, and renews the liquid seal with each use.
- Elimination of unpleasant odors from drainage thanks to the siphon and cap system
- No need to use expensive gels or special cleaners for maintenance
- Comprehensively cost saving for maintenance, it is sufficient to pour a glass of water into the urinal on a daily basis to prevent calcium build-up in the siphon and cap system, this way the cartridge lasts from 4 to 6+ months in operation (this can be increased by regular cleaning with an anti-calcium agent for example a quality toilet gel)
- Dimensions: diameter 11.8 x height 11.5 cm, suitable for Sloan, Falcon, Vitra and Bobrick or other brands using the Falcon Velocity system

Available types

EZ-Trap without removal tool
EZT-00

EZ-Trap with removal tool

X design NON-PARA Puck urinal screen

Packaging Info

Single pack	Inner box	Master case	Pallet
2 pcs	6 pcs	72 pcs	2,592 pcs

Available Colors & Fragrances

White / Fresh
XPU-01W

Blue / Fresh
XPU-02B

Product Benefits

- NON-PARA Puck (PARA stands for paradichlorobenzene = possibly carcinogenic according to the WHO)
- Prevents solids and other debris from clogging the drainage
- Releasing clean & fresh fragrance after each use for up to 30 days
- Ideal for monthly urinal maintenance
- Puck is made of nature-friendly ingredients mostly wax and glycerin
- Disposable - the puck cannot be replaced with a new one
- Packaged in eco-friendly cellophane bag
- Complies European VOC standards
- A new unique X design
- Option for private branding through material cutouts and printing
